

SUBARU
ALL-WHEEL DRIVE

IMPREZA

IMPREZA

DELIVERS IN ALL CONDITIONS*

New Zealand. A country where the weather changes as quickly as the landscape. Where native forests surround untouched lakes and snow-capped mountains meet long, rugged beaches. But it's no secret, that to get to these untouched spots you need the power and capability of All-Wheel Drive technology, which comes standard across the whole Subaru range. Giving you the confidence to go anywhere, in almost all conditions.*

To experience Subaru's All-Wheel Drive for yourself, book a test drive at one of our showrooms today.

*On the very rare occasion that you wish to take your Subaru for a swim, we strongly advise against deep sea driving. While our All-Wheel Drive technology has been rigorously tested, it has not been designed to navigate apocalyptic wastelands, drive through alternative dimensions, or over slip 'n' slides.

WHAT MAKES IT A SUBARU

On New Zealand roads we expect the unexpected. Whether that's unexpected road surfaces, conditions, or the odd wayward sheep, every Subaru comes fully-equipped to handle it.

WHAT'S UNIQUE
ABOUT SUBARU

SYMMETRICAL ALL-WHEEL DRIVE

Given the roads Kiwi drivers have to contend with, our Symmetrical All-Wheel Drive system is an indispensable feature for getting around in NZ.

The way it works is simple – as soon as your Subaru senses a loss of traction in any of the four wheels, it instantly transfers that power to the other wheels that still have grip, giving them the extra oomph to get you out of trouble. It happens so seamlessly you probably won't even notice it, you'll just feel that famous Subaru handling.

Delivering confidence & control

Most cars only distribute power to two wheels, while Subaru's All-Wheel Drive system delivers targeted power to all four wheels simultaneously, giving you twice the grip capacity.

Standard on all NZ new Subarus

We believe in All-Wheel Drive so much that it comes standard in every new Subaru sold through our Authorised Subaru Centres. The way we see it, with NZ's diverse conditions, anything less is sub-standard.

Engineered for perfect balance

For the last 50 years our engineers have been perfecting a platform that is symmetrical, creating an innate sense of balance, with a lower centre of gravity, for greater stability around corners and a smoother power delivery.

EYESIGHT® TECHNOLOGY

Eyesight® is Subaru's award-winning system of cameras and clever computing that acts as your second pair of eyes. It provides a host of safety and driver convenience features.

It uses three-dimensional images captured by cameras mounted at the top of the windscreen to monitor the road, and other road users ahead of you. It can do everything from recognising and preventing potentially dangerous situations to making heavy traffic a bit less tedious.

BOXER ENGINE

Every Subaru has another hidden advantage over ordinary cars: its distinctive 'flat' Boxer engine. Horizontally opposed pistons are balanced with the punching action of two boxers, hence the name, and allow for a lower profile engine. When combined with the AWD platform, every Subaru handles like a dream. And the Boxer engine benefits the driver in other ways too.

Lower centre of gravity. More control.

Designed to sit horizontally in the engine bay, the iconic Boxer gives you a low centre of gravity for better handling, balance, and a smoother drive.

EyeSight Features:

- Pre-collision brake, brake assist and throttle management
- Adaptive cruise control
- Brake light recognition
- Lead vehicle start alert
- Lane sway and lane departure warning
- Lane keep assist
- Autonomous emergency steering
- Speed sign recognition
- Lane centering function

More power. Less vibration.

The evenly balanced forces of the engine produce more torque with less vibration. And with less vibration, comes less noise, and greater cabin comfort.

Flatter engine layout. Higher level of safety.

Perhaps most importantly of all, if a severe frontal collision occurs, due to its low position, the engine will slide below the cabin – not into it.

SUBARU INTELLIGENT DRIVE

SI-DRIVE regulates key engine functions which enables the driver to choose from two distinctive driving modes on selected models: **Intelligent (I)** Mode for everyday city driving and optimised fuel efficiency, or **Sport (S)** Mode for highway driving, enhanced acceleration and consistent power delivery.

DRIVER MONITORING SYSTEM

The Driver Monitoring System adds further convenience and safety to every drive. Using a driver facing camera and facial recognition technology it knows who is driving and can look out for driver fatigue.

Driver personalisation – your Subaru can recognise you and up to an additional four drivers. Enter your name to enjoy personalised welcomes and farewells as you finish your drive.

Wandering gaze warning – warns both passengers and the driver through a visual and audio alert if the driver continues to look away from the road ahead.

Driver drowsiness warning – can detect if the driver is dozing or getting drowsy and offer a warning. (Drowsiness is recognised by calculating the time ratio the driver's eyes are closed.)

HEATED FRONT SEATS

It's like a secret weapon against winter's chill, ensuring that the only thing frosty is the landscape outside. Enjoy the luxury of heated front seats so no adventures have to be put on ice.

WIRELESS Qi CHARGER

Where convenience meets innovation. Simply place your compatible smartphone on the charging pad and let it do all the work, keep your device charged for the journey ahead.

CONNECTIVITY

While you're out there enjoying the drive it pays to stay connected. Whether that's to home, work, or just your favourite playlist, the Impreza's infotainment system seamlessly enhances the Subaru experience.

With a spectacular 11.6" tablet like touchscreen, the infotainment system comes complete with wireless Apple CarPlay™ and Android Auto™ making device connectivity seamless. Make calls, send and receive messages, listen to music or podcasts, or get directions to get you back to civilisation. All hands free, and all right from the comfort of the driver's seat.

Apple CarPlay

androidauto

ELECTRIC SUNROOF

Embrace the great Kiwi outdoors from inside your Subaru Impreza with our electric sunroof. It's your gateway to sun-drenched days and starlit nights, enhancing every drive with a sense of openness and adventure.

SMART KEY AND PUSH BUTTON START

For ultimate convenience, every Impreza comes with a Smart Key that enables Push Button Start and keyless entry, meaning your key can remain in your bag or pocket when you need to lock or unlock your car.

SUBARU LINEARTRONIC TRANSMISSION (WITH MANUAL MODE)

Unlike a conventional automatic transmission, which uses fixed gear ratios, we created the world's first longitudinally mounted continuously variable transmission system to complement our unique Symmetrical All-Wheel Drive system. Result? Greater performance and efficiency, with a smoother gear change and optimum gear ratio at every moment in time. (Or flick it to 'manual mode' and use paddles on the steering column to change through preselected gear ratios.)

WHAT'S UNIQUE ABOUT
SUBARU IMPREZA

FEATURES

IMPREZA

FEATURES INCLUDE:

- ✦ 2.0L Direct Injection Engine
- ✦ Symmetrical All-Wheel Drive
- ✦ 8-speed Subaru Lineartronic Transmission (with paddle shift)
- ✦ EyeSight® clever crash avoidance technology: pre-collision braking, driver alerts, adaptive cruise control and lane keep assist
- ✦ Satellite Navigation
- ✦ Electric Sunroof
- ✦ Harman Kardon Audio - 10 speakers
- ✦ Electronic Park Brake
- ✦ Auto Vehicle Hold and Auto Stop Start
- ✦ 9 Airbags
- ✦ 18" Alloy Wheels
- ✦ Day Time Running Lights - LED
- ✦ 11.6" Tablet-Like Centre Information Display
- ✦ Smart Key & Push Button Start
- ✦ Wireless Apple CarPlay™ & Android Auto™
- ✦ Bluetooth Handsfree and Voice Recognition
- ✦ USB Charge Port for Rear Passenger
- ✦ Leather Accented Upholstery
- ✦ Digital Speedometer
- ✦ Rear Reversing Camera
- ✦ Tyre Pressure Monitoring System
- ✦ SI Drive (2 Modes)
- ✦ Wireless Smartphone Charging
- ✦ Driver Monitoring System
- ✦ Dusk Sensing Headlights
- ✦ Rain Sensing Wipers
- ✦ Reverse Auto Braking
- ✦ Panoramic 360 Degree View Monitor
- ✦ Heated Front Seats

ACCESSORIES

Your Subaru isn't complete until you make it 'your Subaru'. So pick the accessories that will make it perfectly equipped for your lifestyle. You can find more accessory options at subaru.co.nz/accessories

Window Weather Shield

Rubber Mat Set

Bootlip & Bumper Protector

Cargo Tray

Mud Flap Set*

Rear Step Panel

EXTERIOR COLOURS

All colours are available at the time of printing. Always check with your Authorised Subaru Centre regarding colour availability of your selected model before purchase.
